

Tool #16

Guide to Developing Issue Statements

This table was created to assist workgroups with the development of issue statements for the Comprehensive Cancer Control Initiative. It is recommended that it be used with each problem statement to assure consistency and scientific soundness.

Issue Statement

Rationale For Identification/selection (based on supporting documentation):
--

Questions to Address	Supporting Documentation
Is your issue statement: evidence-based, and specific and quantifiable?	Data sources:

1. Does your issue statement consider the following: incidence, mortality, quality of life, disparities, and infrastructure?	Incidence data: Mortality data: Quality of Life: Disparities between populations: Infrastructure/services:	
3. When applicable, have all possible options been considered (all cancers, interventions, special populations, etc)?		
4. Is your issue statement related to the charge of the Utah Comprehensive Cancer Control Initiative? How?		
Populations: <u>Type</u> <input type="checkbox"/> Ethnic <input type="checkbox"/> Geographic <input type="checkbox"/> Disabled <input type="checkbox"/> Age/Sex	<u>Group</u>	<u>Problem</u>
